Bloeke core is a term that has gained traction on TikTok, especially within the Vintage community. It's often used to describe a retro, dad-core aesthetic, characterized by vintage clothing and accessories. Dadcore, a subgenre of blokecore, focuses on more casual, comfortable outfits that reflect a more relaxed and laid-back style.

Recently, the TikTok handle @blokecore has gained popularity, known for posting videos that showcase blokecore outfits and styles. One of the videos by @blokecore features Brandon Huntley, with the hashtag #blokecore.
